

Objective

An interesting position as a dentist in a renowned dental clinic or hospital.

Experience

GBS Dental Clinic

New York

Dentist

2009 to Present

- Applied fluoride and sealants to teeth.
- Wrote prescriptions for antibiotics and other medications.
- Filled pulp chamber and canal with endodontic materials.
- Examined teeth, gums and related tissues, using dental instruments, x-rays, and other diagnostic equipment, to evaluate dental health, diagnose diseases and abnormalities, and plan appropriate treatments.
- Eliminated irritating margins of fillings and corrected occlusions, using dental instruments.
- Diagnosed and treated diseases, injuries, and malformations of teeth, gums and related oral structures, and provided preventive and corrective services.
- Designed, made, and fitted prosthodontic appliances such as space maintainers, bridges, and dentures, and wrote fabrication instructions and prescriptions for denturists and dental technicians.
- Used air turbine and hand instruments, dental appliances and surgical implements.
- Formulated plan of treatment for patient's teeth and mouth tissue.
- Produced and evaluated dental health educational materials.
- Planned, organized, and maintained dental health programs.
- Treated exposure of pulp by pulp capping, removal of pulp from pulp chamber, and root canal, using dental instruments.
- Managed business, employing and supervising staff and handling paperwork and insurance claims.
- Performed oral and periodontal surgery on the jaw and mouth.
- Bleached, cleaned and polished teeth to restore natural color.
- Advised and instructed patients regarding preventive dental care, the causes and treatment of dental problems, and oral health care services.
- Administered anesthetics to limit the amount of pain experienced by patients during procedures.
- Used masks, gloves and safety glasses to protect themselves and their patients from infectious diseases.
- Removed diseased tissue using surgical instruments.
- Analyzed and evaluated dental needs to determine changes and trends in patterns of dental disease.
