Objective

Project Manager with a Software Development Company

Accomplishments

Project Leadership

- Recruited and built project teams to implement new, innovative products.
- Created accurate resource forecasts, project schedules and cost projections.
- Provided training and guidance to junior programmers.

Computer Technology

- Familiar with C, Pascal, Fortran, Basic and Ada
- Extensive programming experience under CP/M, DOS, Windows and Unix.
- Special interest in high-speed sorting algorithms and encoding techniques.
- Initiated the use of a unique event-driven, user-interface library at Sunnyvale College. Adapted the library to perform additional functions.
