OBJECTIVE

A position as an environmental engineer with a company committed to water quality control.

EDUCATION

2005	BERKELEY UNIVERSITY M.S. in Chemical Engineering	BERKELEY, CA
2002	BERKELEY UNIVERSITY B.S. in Environmental Science	BERKELEY, CA

CAREER GOALS

I am dedicated to the field of water quality and environmental safety. Through my summer work with the Institute of Water Studies, I have seen that with hard work, public education and a burning desire for a better future, we can initiate a significant turn-around in global water quality. I want to be part of that future. To that end, I want to work for a company with a proven track record in commitment to water quality projects, accountability to non-profit environmental groups and the vision to invest in continuing research and development.

EXPERIENCE

2005 to Present	INSTITUTE OF WATER STUDIES Summer employment <ul style="list-style-type: none">• Worked with engineers designing and constructing a silicon-based system for oil-spill containment.• Observed project engineers in planning phase of sewage treatment spills.• Acted as liaison between Institute of Water Studies and Clean Water Now! environmental group.• Trained in sewage treatment systems, including project design, reading blueprints, writing technical manuals, awareness of health dangers, water testing, equipment installation and maintenance.• Learned office procedures.	LONG BEACH, CA
